SUMMARY

Fullstack developer with 2+ years building production web applications for clients across industries. Focused on React, Next.js, and TypeScript with experience shipping end-to-end solutions—from landing pages to complex business tools like applicant tracking systems and event management platforms. Currently seeking remote opportunities with product-focused startups.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, React Query, TailwindCSS, shadcn/ui, HTML, CSS

Backend: Node.js, Express, Nest.js, REST APIs

Databases: MongoDB, MySQL, Supabase, Prisma, Drizzle

Cloud & Tools: Vercel, AWS, GCP, Git, GitHub, Chrome DevTools

CRM/APIs: HubSpot, ClickUp API, Salesforce

WORK EXPERIENCE

Fullstack Developer (Freelance)

Multiple Clients | Jul 2023 – Present

Pool Construction Company (2025–Present)

- Built custom Applicant Tracking System enabling job posting management, candidate pipeline tracking, and hiring workflow automation
- Redesigned landing page for improved performance and conversion optimization

Printrail (Founder) — printrail.com | steven.printrail.com

- Launched business landing page with responsive, SEO-optimized design driving increased customer inquiries
- Developed full-featured wedding planning platform: RSVP management, guest list tracking, budget tools, QR-based photo uploads, event timeline, task management, and multi-user collaboration
- Stack: React, Next.js, TypeScript, TailwindCSS, Supabase

MGIUK Global Visa Services (Jan–Oct 2023)

- Built web-based invoicing system streamlining financial operations and reducing manual data entry
- Created UK visa evaluation form simplifying application intake process
- Configured HubSpot CRM and Office 365 infrastructure for team of 10+

Frontend Developer

9epoch.ai | Jan 2025 – Mar 2025

- Redesigned authentication flows (sign-in/sign-up), improving UX and reducing user drop-off
- Refactored pricing component architecture for better maintainability and cleaner state management
- Delivered responsive UI components using React, TypeScript, and modern frontend tooling

Technical Support (API & Integrations Focus)

ClickUp | Nov 2023 – Present

- Perform complex API troubleshooting using Chrome DevTools across web, desktop, and mobile platforms
- Document and escalate frontend/backend defects with detailed reproduction steps, HAR files, and video evidence
- Resolve REST API integration issues for customers building on ClickUp's platform

L2 Technical Support Specialist

Concentrix | May 2017 – Aug 2019

- Troubleshoot complex network issues (routing, connectivity, security) for enterprise clients
- Earned CCNA certification (2020) demonstrating networking fundamentals proficiency

EDUCATION

BS Information Systems

Ateneo de Cagayan | 2017
